Elevating Private Aviation Worldwide

Titan Aviation stands at the forefront of delivering premier private aviation solutions tailored for individuals seeking private jet ownership or exclusive travel experiences.

As an industry stalwart, Titan has fleet worldwide with bases in key locations across the U.S., Europe, the Middle East, and Asia Pacific enabling us to provide our clients global reach with local expertise.

We constantly strive to add value for our customers, whether through our comprehensive scope of services, our ever-expanding list of capabilities, our global network or our 24/7 support.

What truly differentiates us, however, is our commitment to serving your specific needs. From your first aircraft purchase, through staffing, maintenance, refurbishment, or the sale of your business jet, Titan has been efficiently operating your valued assets, for over 20 years.

Paramount to our team of aviation professionals looking after you is your safety, which we maintain to the highest standards through continuous quality and safety checks. Choose - The Titan way to fly.

Assurance of Safety and Quality

Titan Aviation upholds the highest standards of aviation reliability. Our emphasis on security, adherence to international standards, proactive risk management, and strategic partnerships informs every aspect of our company. This resonates through our flight operations, personnel training, and accounting practices, ensuring a comprehensive and dependable aviation experience.

In addition to operating under some of the world's most stringent aviation regulatory authorities, we cement our unwavering commitment to safety with :

- | IS-BAO Stage 2 Approval
- | 24/7 emergency response capability for medical and security assistance in-flight and on-ground
- | Rigorous and dynamic risk assessment conducted for each flight, with immediate adjustments based on real-time conditions
- | Mature in-house safety management system to minimize all potential risks

Our Services

Aircraft Management

At Titan, we handle all aspects of private aviation ownership and operations seamlessly. From safeguarding your assets and regulatory oversight to safe and efficient operations at all times, we've got you covered. We've honed our team and developed bespoke solutions to always meet your needs with the highest degree of client service, ensuring your experience with us is nothing short of exceptional. To us, you are not just a number.

Transparency, openness and trust are the ethos of our relationships with clients. We built this with you by looking into every operational detail, tracking costs and billing all vendor services on actuals.

Optimise your Investment

With a worldwide network of brokers and jet travelers at our fingertips, we help you offset ownership costs by putting your aircraft to work for you on the charter market. Take advantage of our fleet rates for everything from aircraft insurance and pilot training to fuel.

Aircraft Trading

Titan's unique standing in the industry enables us to adeptly assess your needs, identify the finest aircraft options, and skillfully negotiate your purchase. We recognize that procuring a new or pre-owned private jet is a significant investment and equip you with the insight needed to make discerning decisions, ensuring a seamless acquisition experience. With enduring relationships with premier OEMs worldwide, we have forged deep connections that set us apart in the industry. Our aircraft acquisition expert will deftly navigate you through the entire process by

- | Exploring the global market for aircraft that resonate with your needs.
- | Assisting in customizing aircraft options and maintenance programs keeping in mind your operational and financial needs.
- | Conducting rigorous inspections to ensure aircraft adhere to our standards.
- | Managing finance, insurance and other administrative intricacies.

Interested in selling your jet?

Showcase your assets worldwide through us and let the world become your marketplace.

Aircraft Charter

Titan offers bespoke charter flights that are known for its excellent service and flexibility. Elevate your in-flight experience by personalizing your itinerary with tailored menus and meticulously designed cabin spaces. When you choose to fly with us, anticipate an experience perfectly crafted for you without compromising on our exceptional safety standards.

Our professional charter team, available 24x7, can have you airborne in as little as three hours, a feat that beats industry standards. Coupled with a diverse fleet of luxury business jets capable of navigating to even the most remote airports culminates in a truly unforgettable journey.

Aviation Staffing

Redefine excellence in the skies with our aviation staffing solutions. Whether you're in search of pilots, cabin crew, or maintenance personnel, we embark to support you with a team of professionals with ample experience, technical skills, relevant training and knowledge specific to your aircraft.

The process begins with us obtaining a robust understanding of your needs. The rigorous sourcing and selection of candidates that ensue ensures you have qualified personnel that meet every regulatory requirement and share the right personal chemistry with you.

At Titan, we also offer detailed guidance on compensation packages, skillfully negotiate offers on your behalf, and adeptly manage your crew, signifying the pinnacle of convenience and excellence.

Our comprehensive services include recruitment of

- | Full-Time Flight Crew
- | Trainers and Examiners
- | Short-Term Contract Crew
- | Flight Attendant Placement
- | Type-Rated Flight Engineers
- | Other Qualified Maintenance Personnel

Commitment to Sustainability

Recognising the need to inculcate more green procedures to reduce our environmental impact, we adopt certain procedures and give our clients the opportunity to contribute towards global sustainability goals.

Optimized Route Technology

Our route optimization technology manages speed, altitude, and routing for each flight to reduce fuel consumption.

Strategic Airport Selection

We offer you the flexibility to choose airports that help avoid congested and busy hubs. This strategic approach contributes to decreased traffic and reduced emissions.

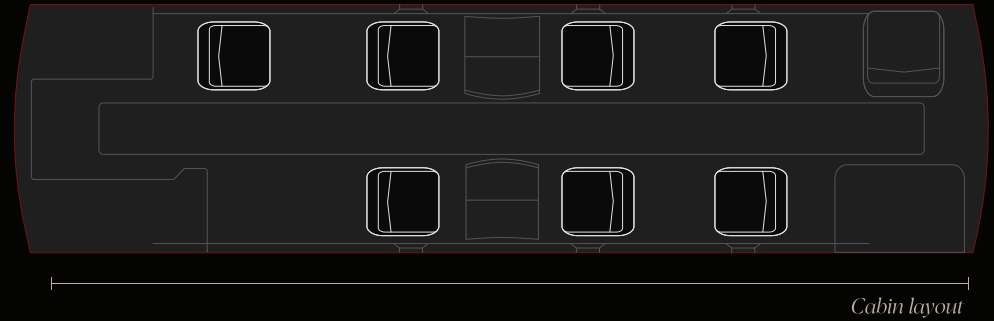

Carbon Offset Programs

These voluntary carbon offset programs are carefully selected to reduce the carbon footprint associated with your flights through the purchase of carbon credits or SAF credits.
